

MAGCC Keg policy & pricing for wedding receptions

Mount Ayr Golf & Country Club has adopted the following policy for kegs of beer for wedding receptions. The policy is separated out for a reception where the bar is to be operated inside the clubhouse vs outside the clubhouse. All keg pricing is listed for domestic beers only. Kegs of imported or specialty beers may be priced differently depending upon price and availability at the time of order. All kegs must be purchased through MAGCC, and be consumed on site, per the restrictions of our liquor license.

Bar inside the clubhouse:

- No physical kegs will be used inside the clubhouse, due to the lines and tappers having been removed
- Keg pricing will be distributed in cans of beer, (165 cans per keg)
- Keg price will be \$250 each with a limit of 2 (330 cans total, max.)
- Once the 'free' keg beer (165 or 330 cans) have been served, beers will then be sold at regular bar price

Benefit of this policy is that any can of domestic beer product can be served as 'free' keg beer. You'll not be limited to just one type of beer, like you would with an actual keg.

Bar outside the clubhouse:

- Actual kegs can be used outside of the clubhouse. However, it is the responsibility of the renter to provide a storage and cooling system for the kegs
- Keg price will be \$300 each with NO limit on kegs
- Once the kegs have run out, canned beers will then be sold at regular bar price

For the outside for the clubhouse policy to be used, the entire bar service must outside. Mixed drinks inside and kegs outside will not be allowed.
